

GA3

Technical Data

Size: 600 x 600 x 80 mm

Weight: about 12 kg

Power supply: 230V~

Power consumption: max. 12 VA

Protection type: IP 30 (in dry rooms)

Ambient temperature: 0 ... 40 °C

Bus-connection: RESOLVBus, RS232 possible by adapter

The universal RESOLVBus allows a parallel connection of 8 large displays as well as further VBus modules. The Bus-line can be extended by a two-wire cable.

A complete mounted Large-Display-Module for the visualisation of collector- and store temperatures as well as the calorimeter-yield of the solar heating system via a 4-place-and a 6-place 7-segment-display. Simple connection to the controller with RESOLVBus is possible. For the connection to a RS232-data-output please use the adapter-set. (see on page 33)

Wooden housing for inside wall-mounting. With aluminium-sides and antireflective filter-glass. Cover-foil in colour print.

Additional versions and individual layout of the front foil on request. The costs are individually calculated according to efforts.

RESOL GA3

Large display board with displays for collector- and store temperature and also for heat quantity, incl. plug-in power supply

Price bracket - C
